

Adrian Salguet

Baguio City, Philippines • +639157502488 • a.adriansalguet3.code@gmail.com

I am a **Web Developer** with over 4 years of experience dedicated to crafting engaging and user-friendly websites that not only meet but exceed client expectations. I bring a deep understanding of HTML, CSS, SCSS/SASS, JavaScript, Vue.js, PHP, Laravel, and MySQL to every project. My expertise in WordPress (including Elementor Pro, Bakery Builder, ACF, and Site Origin), along with skills in Tailwind, Bootstrap, Figma, and technical analysis, enables me to deliver high-quality, innovative web solutions that resonate with users and drive results. My passion lies in website optimization, updating, and creating designs that truly engage audiences.

Experience

JULY 2019 – MARCH 2023

Web Developer | Freelance

I've had the pleasure of working on a variety of projects for different clients, especially local ones, from dynamic websites to engaging online experiences. Each project has been a unique journey, offering the chance to tailor solutions to specific needs and bring creative ideas to life. What I find most rewarding is collaborating closely with clients, understanding their vision, and turning it into a reality that exceeds their expectations.

MARCH 2023 – SEPTEMBER 2024

Web Developer | Technodream Web Design | Baguio City, Philippines

I provided front-end website development services using WordPress, coding websites with HTML, CSS, JavaScript, and PHP. My role involved overseeing technical issues and troubleshooting requests to resolve user problems effectively. I conceived and built optimized landing pages in HTML and CSS, ensuring integration and cross-browser compatibility. Additionally, I completed full redesigns of existing websites to improve navigation, enhance visuals, and strengthen search engine rankings. I also focused on optimizing web applications for speed, scalability, and security.

NOVEMBER 2024 – JANUARY 2025

Web Developer | RFPMart LLC | Austin, USA

I've developed websites using the U.S. Web Design System (USWDS) and provided front-end development services, coding in Tailwind, SCSS, JavaScript, and PHP. I have also used GitHub and Git for version control and collaboration throughout development projects.
